Re:

Patent Application for Kazutaka Shibata

Application No. 10/727,577

Dear Sir:

We are returning herewith an Office Action mailed in above-identified application that was erroneously mailed to our firm on July 7, 2005. We are not the responsible attorneys of record for this matter.

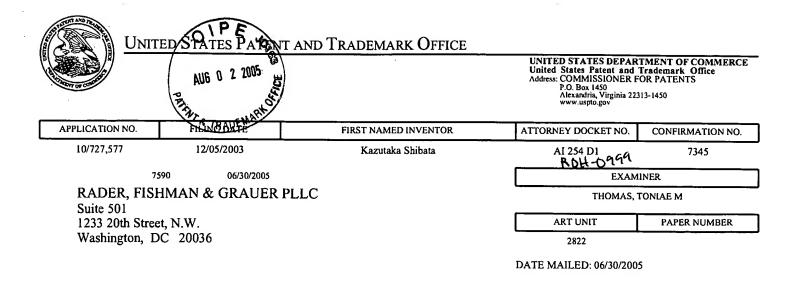

Very truly yours,

RADER, FISHMAN & GRAUER PLLC

Kalarek

Paula L. Talarek Office Manager

PLT/ Encl.

Please find below and/or attached an Office communication concerning this application or proceeding.

DL-326 (Rev. 1-04) Office Action Summary Part of Paper No./Mail Date 06272005	Patent and Trademark Office OL-326 (Rev. 1-04)			<u> </u>	

Art Unit: 2822

DETAILED ACTION

1. This action is a first Office action on the merits of Application Serial No. 10/727,577, which is a divisional of Application Serial No. 10/284,318 filed 31 October 2002, now US Patent No. 6,867,501.

2. The preliminary amendment filed on 05 December 2003 canceled claims 1-4 and 17-18. Accordingly, claims 5-16 are currently pending.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 9-14 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The meaning of the claim language an insulator at between the first and second blocks as recited in claim 5 at line 5 is unclear. The phrase "at between" renders the claim indefinite. For purposes of examination, the language has been interpreted to mean an insulator between the first and second blocks.

The meaning of the claim language arranging a conductor therein onto <u>an</u> <u>one</u> surface as recited in claim 9 at lines 3-4 is unclear. The phrase "an one" renders the claim indefinite. For purposes of examination, the language has been interpreted to mean arranging a conductor therein onto one surface.

Application/Control Number: 10/727,577 Page 3

Art Unit: 2822

The phrase the semiconductor chips as recited in claim 10 at line 3 lacks antecedent basis.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

4. Claims 9 and 13-16 are rejected under 35 U.S.C. 102(e) as being anticipated by Patti (US 6,642,081 B1).1

Patti discloses a method for manufacturing a semiconductor device (figs. 1-9 and accompanying text). The method includes: connecting face down a semiconductor chip 30 having an active surface formed with a recess arranging a conductor 52 therein onto one surface of a semiconductor substrate 20 (figs. 1, 8 and col. 6, lines 7-13); and polishing or abrading an inactive surface of the semiconductor chip 30 to expose the conductor 52 in the inactive surface of

¹ Applicant cannot rely upon the foreign priority papers to overcome this rejection because a translation of said papers has not been made of record in accordance with 37 CFR 1.55. See MPEP § 201.15.

Art Unit: 2822

the semiconductor chip after the on-substrate connecting step (fig. 9 and col. 6, lines 28-31).

Another chip 40 is connected on to the semiconductor chip (fig. 1 and col. 3, lines 45-50).

The semiconductor chip 40 has an active surface formed with a recess arranging a conductor 53 therein, and is connected face down on to the semiconductor chip 30 (fig. 1). A polishing or abrading step is performed in an inactive surface of the semiconductor chip 40 to expose the conductor 53 in the inactive surface (fig. 1).

Likewise, Patti discloses a method for manufacturing a semiconductor device (figs. 1-9 and accompanying text), wherein the method includes: a step of connecting a semiconductor chip 20 on an active surface of a semiconductor substrate 30 having an active surface formed with a recess arranging a conductor 52 therein (figs. 1, 8 and col. 6, lines 7-13); and a step of polishing or abrading an inactive surface of the semiconductor substrate 30 to expose the conductor 52 (figs. 1, 9 and col. 6, lines 28-31).

Allowable Subject Matter

5. Claim 5 would be allowable if rewritten or amended to overcome the rejections under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action. Claims 6-8 would be allowable if rewritten to overcome the rejection under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim, claim 5, and any intervening claims. The

Art Unit: 2822

prior art of record does not anticipate, teach or suggest a method for manufacturing a semiconductor device substantially, wherein the method comprises the combination of steps substantially as claimed.

6. Claims 10-13 would be allowable (1) if rewritten in independent form including all of the limitations of the base claim, claim 9, and any intervening claims; and (2) if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

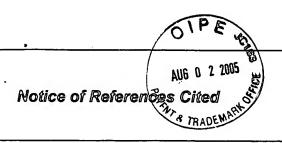

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Toniae M. Thomas whose telephone number is (571) 272-1846. The examiner can normally be reached on Monday through Friday from 8:30 a.m. to 5:30 p.m.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Amir Zarabian can be reached on (571) 272-1852. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
